The Aviation Accreditation Board International (AABI) is required to inform the public about its accreditation decisions. One of the ways AABI does this is to provide the public with information about the accreditation decision process, the nature and scope of AABI accreditation activity and the importance and value of accreditation. AABI also provides the public with detailed descriptions of its accreditation policies and procedures by publishing its Accreditation Criteria Manual (Form 201) and Policies & Procedures Manual (Form 225), along with all the AABI forms, on its website: http://www.aabi.aero/forms.html (Paragraph 12[B] [5], 2010 CHEA Recognition Policy and Procedures).

Interim Report:
Southeastern Oklahoma State University
The Board action was to acknowledge the interim report; require an additional interim report, due January 6, 2020, to provide evidence of the development and implementation of a comprehensive assessment plan as outlined in AABI 3.10. The interim report must show specific evidence of development and use of the comprehensive assessment plan and its specific application to the aviation program.
