SUMMARY OF RECENT ACTION

The Aviation Accreditation Board International (AABI) is required to inform the public about its accreditation decisions. One of the ways AABI does this is to provide the public with information about the accreditation decision process, the nature and scope of AABI accreditation activity and the importance and value of accreditation. AABI also provides the public with detailed descriptions of its accreditation policies and procedures by publishing its Accreditation Criteria Manual (Form 201) and Policies & Procedures Manual (Form 225), along with all the AABI forms, on its website: http://www.aabi.aero/forms.html (Paragraph 12[B][5], 2010 CHEA Recognition Policy and Procedures).

Extension Request:
Florida Memorial University
The Board action was to grant the institution’s request.

Since the delay in approving this extension is no fault of the institution or program, which affected the term of accreditation, the Accreditation Committee recommended to the Board of Trustees that the term of accreditation be extended to February 29, 2020, with a fall 2019 visit planned. The Committee further recommended that the fee normally assessed for such an extension be waived; the Board concurred.
