SUMMARY OF RECENT ACTION

The Aviation Accreditation Board International (AABI) is required to inform the public about its accreditation decisions. One of the ways AABI does this is to provide the public with information about the accreditation decision process, the nature and scope of AABI accreditation activity and the importance and value of accreditation. AABI also provides the public with detailed descriptions of its accreditation policies and procedures by publishing its Accreditation Criteria Manual (Form 201) and Policies & Procedures Manual (Form 225), along with all the AABI forms, on its website: http://www.aabi.aero/forms.html (Paragraph 12[B] [5], 2010 CHEA Recognition Policy and Procedures).

Reaffirmation:
University of North Dakota
The Board action was to grant reaffirmation for two programs and an initial accreditation of one program, each for a period of five years, with no interim reports required:

- B.S. in UAS Operations (AABI UAS)
- B.S. in Commercial Aviation (AABI Flight Education)
- B.S. in Air Traffic Control (AABI ATC)
