Aviation Accreditation Board International August 21, 2020

SUMMARY OF RECENT ACTION

The Aviation Accreditation Board International (AABI) is required to inform the public about its accreditation decisions. One of the ways AABI does this is to provide the public with information about the accreditation decision process, the nature and scope of AABI accreditation activity and the importance and value of accreditation. AABI also provides the public with detailed descriptions of its accreditation policies and procedures by publishing its Accreditation Criteria Manual (Form 201) and Policies & Procedures Manual (Form 225), along with all the AABI forms, on its website: <http://www.aabi.aero/forms.html> (Paragraph 12[B] [5], 2010 *CHEA Recognition Policy and Procedures*).

Reaffirmation:

Minnesota State University, Mankato

The Board action was to reaffirm accreditation for a period of five years for the following program:

B.S. in Aviation, Professional Flight (AABI Flight Education)

The Board accepted the institution's responses to Recommendations 1 and 2. An interim report is required, due June 7, 2021, to provide evidence of the assessment and use for continuous improvement of the five Safety Program goals articulated in the MNSU Safety Program document.
