Aviation Accreditation Board International February 19, 2021

SUMMARY OF RECENT ACTION

The Aviation Accreditation Board International (AABI) is required to inform the public about its accreditation decisions. One of the ways AABI does this is to provide the public with information about the accreditation decision process, the nature and scope of AABI accreditation activity and the importance and value of accreditation. AABI also provides the public with detailed descriptions of its accreditation policies and procedures by publishing its Accreditation Criteria Manual (Form 201) and Policies & Procedures Manual (Form 225), along with all the AABI forms, on its website: <http://www.aabi.aero/forms.html> (Paragraphs 11[A] [1] and 12[D][3], 2019 *CHEA Recognition Policy and Procedures*).

Reaffirmation:

Embry-Riddle Aeronautical University's Daytona Beach Campus

The Board action was to grant accreditation for five years for the following programs:

- A.S. in Aviation Maintenance Science (AABI Maintenance Technology)
- B.S. in Aviation Maintenance Science (AABI Aviation Maintenance)
- B.S. in Aeronautical Science (AABI Flight Education)
- B.S. in Aeronautics (AABI Aviation Studies)
- B.S. in Unmanned Aircraft Systems Science (AABI Unmanned Aircraft Systems)
- B.S. in Air Traffic Management (AABI Air Traffic Control)
- B.S. in Aviation Business Administration (AABI Aviation Management)
- M.S. in Aeronautics (AABI Graduate)
- Ph.D. in Aviation (AABI Graduate)

The Board accepted the institution's response to Recommendation 1, with no further reports required.
