Aviation Accreditation Board International July 15, 2022

SUMMARY OF RECENT ACTION

The Aviation Accreditation Board International (AABI) is required to inform the public about its accreditation decisions. One of the ways AABI does this is to provide the public with information about the accreditation decision process, the nature and scope of AABI accreditation activity and the importance and value of accreditation. AABI also provides the public with detailed descriptions of its accreditation policies and procedures by publishing its Accreditation Criteria Manual (Form 201) and Policies & Procedures Manual (Form 225), along with all the AABI forms, on its website: <http://www.aabi.aero/forms.html> (Paragraphs 11[A][1] and 12[D][3], 2019 *CHEA Recognition Policy and Procedures*).

Reaffirmation:

Florida Tech

The Board action was to accept the institution's responses to both Recommendations, with no further reports required. The Board action was also to reaffirm the following programs for a period of five years:

- B.S. in Aeronautical Science, Flight Option (AABI Flight Education)
- B.S. in Aeronautical Science (AABI Aviation Studies)
- B.S. in Aviation Management, Flight Option (AABI Flight Education)
- B.S. in Aviation Management (AABI Aviation Management)
